

# Choosing a weigh scale

**XR5000**

- Store up to 1 million records in 1000 weighing sessions. For each animal record up to 4 IDs and 100 pieces of information.
- Track performance through a range of features to calculate and visualise the performance of individual animals or groups.
- Draft up to 10 ways sorting by custom criteria.
- Simple and fast to set up with predefined setups or save your own favourite setups to easily switch between jobs.
- Clearly see the screen even in bright sunlight with the high brightness 7" display.
- Seamlessly upload sessions via Wi-Fi direct from the device to the Datamars Livestock Management software to easily turn weigh data into simple, clear, valuable insights.
- See how animals are performing against target weights and identify top and bottom performers via simple graphs and charts.
- Long-life battery: 10 hours with backlight on, 13 hours with it off.

**ID5000**

- Store up to 1 million records in 1000 weighing sessions. For each animal record up to 3 IDs and 3 pieces of information.
- Track performance through calculating and visualising an animal's weight gain.
- Draft up to 5 ways by weight, weight gain and single criteria.
- Simple and fast to set up with predefined setups or save your own favourite setups to easily switch between jobs.
- Clearly see the screen even in bright sunlight with the high brightness 7" display.
- Seamlessly upload sessions via Wi-Fi direct from the device to the Datamars Livestock Cloud software to easily turn weigh data into simple, clear, valuable insights.
- See how animals are performing against target weights and identify top and bottom performers via simple graphs and charts.
- Long-life battery: 10 hours with backlight on, 13 hours with it off.

**JR5000**

- Store up to 1 million records in 1000 weighing sessions. For each animal record up to 2 IDs and 1 piece of information.
- Unique Tru-Test Superdamp IV™ technology locks onto the weight of a moving animal faster than ever.
- Draft animals up to 5 ways by weight.
- High brightness display makes the screen viewable in even the harshest light conditions.
- Long-life battery: 10 hours with backlight on, 13 hours with it off.

**S3**

- Store unlimited records and weighing sessions.
- Easy to see weights, no matter the conditions.
- Record weights and configure settings using the Datamars Pro mobile app or Data Link for Windows PC.
- Rugged and waterproof, to withstand the toughest environments.
- Up to 20 hours of run time and only 6 hours to recharge.

# Weigh scale indicator comparison
